

Nowadays, the subject of companies' social responsibility is increasingly acknowledged and growing in importance.

Boost social responsibility

contribute to the growth

sustainable development

your company.

The growing impact made on their clients and partners by companies' charitable attitudes has turned social responsibility into an opportunity for your company and provides a source of motivation for us too, as an organisation involved in cooperation for development, to be able to offer you the possibility of an attractive partnership.

Support a socially-recognised cause by taking up one of these challenges:

- [Become a Member](#)
- [Support a Project](#)
- [Make a donation](#)

You can also...

Offer goods and services – when a company offers its expertise, it's giving us the opportunity to benefit from a quality professional service, which would often be beyond our reach, at no charge. We will issue you with a declaration for tax purposes in exactly the same way as we would with a donation. If you have a partnership proposal to offer us, please contact us at [oikos s.sec@oikos.pt](mailto:s.sec@oikos.pt)

What you'll receive from Oikos:

- » A declaration of donation for tax purposes.
- » Your company will be featured on the Oikos website and social networks (over 12,500 fans on Facebook).

Make our mission your mission too.

Share our goals of eradicating extreme poverty and take an active part in making them happen. Ensure people everywhere can enjoy their right to a life of dignity.
